

Webinar of the secretome GISM section: Secretome and Extracellular vesicles in health and disease

4 July 2023, from 2 to 4pm.

Program

Coordination: *Enrico Ragni, Laboratorio di Biotecnologie applicate all'ortopedia, OGSA, Milan.*
Michela Pozzobon, Dept of Women's and Children's Health, Unipd, Padova.

14.00-14.05 Welcome and introduction

14.05-14.35 Clotilde Thery, Institut Curie, PSL Research University, Paris, France

"Exosomes and other extracellular vesicles in communication between tumors and the immune system".

14.35-14.55 Andrea De Luna, Center for Regenerative Medicine, University For Continuing Education, Krems, Austria

"Extracellular vesicles from Hoffa Fat Pad derived mesenchymal stem cells - friends or foe?".

Young session

14.55-15.05 Paola Bisaccia, Department of Women's and Children's Health, Unipd, Padova, Italy.

"The ROScue capability of extracellular vesicles in a bronchopulmonary dysplasia model".

15.05-15.15 Elisa Cimetta, Industrial Engineering, Unipd, Padova, Italy

"miR-210-3p enriched extracellular vesicles from hypoxic neuroblastoma cells stimulate migration and invasion of target cells".

15.15-15.25 Martina San Donà, Istituto di Ricovero e Cura a Carattere Scientifico (IRCCS), Fondazione Santa Lucia, Rome, Italy

"Regenerative potential of Fibro-Adipogenic Progenitors derived Extracellular Vesicles in the treatment of Duchenne Muscular Dystrophy".

15.25-16.00. Questions.

To participate: subscribe to Gruppo Italiano Staminali Mesenchimali (GISM). 50 euro annual fee.
